Installing an M.2 Card

Please follow the steps below to install the card into the socket.

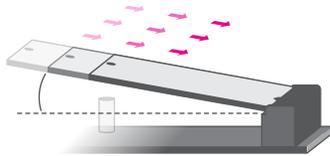

Step 1:

Insert the card into the socket at an angle while making sure the notch and key are perfectly aligned.

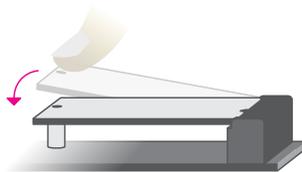

Step 2:

Press the end of the card far from the socket down until against the stand-off.

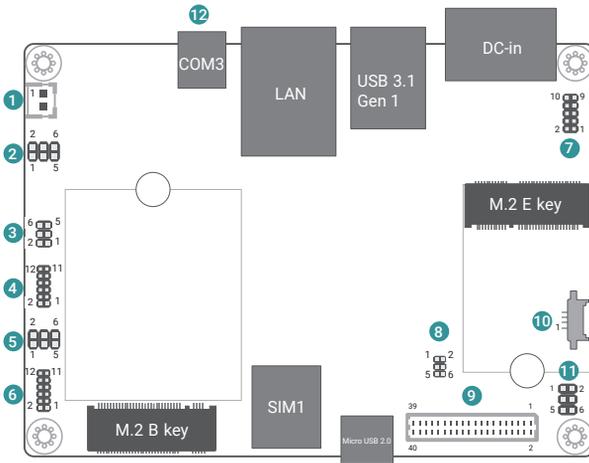

Step 3:

Screw tight the card onto the stand-off with a screw driver and a stand-off screw until the gap between the card and the stand-off closes up. The card should be lying parallel to the board when it's correctly mounted.
